TWELFTH YEAR. NO 277.

BRYAN TEXAS, TUESDAY MORNING, OCT 29, 1907

PRICE FIVE CENTS

## Everybody likes good Biscuits

And *Marigold* Flour makes the whitest, lightest, most delicately delicious biscuits you ever saw—they'll almost melt in your mouth.

### Marigold Flour

is more than just a "biscuit" flour—it's good for all purposes—but we DO want you to try it for biscuits; we KNOW you'll like it.

### STEAM YACHTS.

These Expensive Luxuries Are Numerous In This Country.

Twenty-five dollars an hour seems a big amount to pay for one's pleasure, but with the millionaire expense is of no consideration where his comfort is concerned. He has taken to yachting with a zeal that is increasing every year, and his floating home is a marvel of beauty—his "supreme luxury."

There are registered in the United States over 1,200 seagoing steam yachts, representing approximately \$60,000,000. Of these more than 300 fly the flag of the New York Yacht club. Others steam under the colors of the Corinthian Yacht club of Marblehead or the Atlantic Yacht club or smaller clubs. There are more steam yachts registered in this country than in England or France or Germany.

Probably not one of the dozen big steam yachts in the New York Yacht club fleet cost to build and equip less than \$500,000. But the cost of maintenance is quite another story. No one knows, of course, just how much it costs Mr. Morgan to keep the *Corsair* going. But if such a yacht, for example, carrying a crew of sixty men, is kept in commission for six months out of the twelve the payroll will run close to \$30,000. To feed the crew, to pay for coal and oil, for docking and other necessary expenses will call for an expenditure of from \$30,000 to \$50,000 or more. Then there is the expense of entertaining the owner, his family and his guests on cruise, a matter of \$20,000, bringing the total cost very near the \$100,000 mark. Never in all history was another such costly and luxurious vehicle. Any one of a dozen American yachts now skimming the seven seas is costing its owner from \$15,000 to \$20,000 a month. This means an outlay running from \$500 to \$700 a day, or approximately \$25 an hour. If the owner is entertaining a party of eight persons on a foreign cruise, exactly \$75 a day, or \$5,600 per cruise, is spent on each individual guest.—Broadway Magazine.

### Thread From Wood Fiber.

Xyloin is the name given by its manufacturers, a German firm at Plauen, to a kind of paper thread made from wood fiber. According to the descriptions given in various technical publications, this new product can be used in the looms in the same way that cotton and linen yarns are used. The thread is not brittle and has a hard surface. It has great tensile strength and is capable of being woven into all manner of cloth from pocket handkerchiefs to floor carpets. Xyloin neither shrinks nor stretches in any appreciable degree, and moisture has no particular effect upon it. It is susceptible to dyes to a considerably greater extent than cotton and linen, while the price is only one-third that of the former and one-tenth that of the latter material.

### The Name Lusitania.

The Cunard company, following its long established habit of naming its ships after the classic subdivisions of Europe, lighted upon "Lusitania" and "Mauretania." The first is the ancient name of the country inhabited by the Lusitanii, which included the greater part of modern Portugal and ran over into the present Spanish provinces of Estremadura and Toledo. The second, of about the same age, comes from across the strait of Gibraltar, where the Mauri lived, the present Morocco or thereabout.—New York Times.

### An Ambitious Prince.

When Prince Edward, son of the Prince of Wales and heir apparent to the British throne, was about nine years old he said to his nurse one night before going to sleep: "You know that some day I shall be king. Well, when I am I shall do three things. First, I shall make a law that no one is to cut off puppy dogs' tails, for that is very cruel. Then I shall make a law that no one is to put bearing reins on horses, for that is another cruel thing. And I shall try to do away with all sin."

### Colliers as Scouts.

This year's army maneuvers in Italy are signalized by the introduction of the dog as an element in tactics. A small group of scouting and messenger dogs is attached by way of experiment to the First army corps, and if the results are deemed sufficiently good dogs are likely to be largely used by the intelligence department. It is worth noting, too, that the dogs selected as pioneers in this work are Scotch collies.—London Globe.

### French Decorations.

There are today at the Palais Bourbon half a dozen ushers who wear the "palmes academiques" on their black coats. We have also a guardian of the peace who is an officer of the academy, only this brave policeman modestly does not exhibit his ribbon. As for the holders of the palmes academiques who scarcely know how to read and write, they are legion.—Paris Intransigeant.

## Brevities

### THE HALL OF FAME.

King Leopold of Belgium has bought the Chateau Lormoy, near Paris, and will furnish it luxuriously.

General Weyler has just finished writing his memoirs of the time when he was governor general of Cuba.

In the new stables of Banker Mortimer L. Schiff on Long Island his blue blooded cattle will have stalls done in white tile and will eat from white porcelain receptacles.

Lieutenant Colonel Lige Halford, at the age of sixty-four, is now retired. The place with which President Harrison rewarded him for faithful service has made him comfortable for life.

Dr. Thomas S. Heaton of Boston caught off the coast of Nova Scotia with a hook and line an albatross twenty-five inches high, thirty-six inches from beak to tail and seventy-five pounds in weight.

The queen of Roumania is ardently pursuing her philanthropic idea, which first took practical shape last year, of collecting the blind of her country in one city, which her majesty has given the name of "Vatra Luminosa."

Augustus Wood of Lebanon, N. H., started in recently on his fifty-fifth consecutive year of service in one shop as a machinist. Mr. Wood claims the distinction of having worked the longest term of continuous service in the same shop of any person in New Hampshire.

Patrick Mahoney of Brookfield, Mass., has filed a claim against the federal government for three days' pay due him since 1862. He says he was working in the armory at Springfield during the civil war and had three days' wages coming to him when he learned he was about to be drafted into actual service.

Dr. Elwood Meade, formerly chief of the bureau of irrigation of the department of agriculture and now living in Laramie, Wyo., has accepted the office of chief of the irrigation investigations for Australia, which was recently tendered him by the British government. The place, it is stated, carries with it an annual salary of \$15,000.

Ex-Judge Charles German Burton, the new commander in chief of the Grand Army of the Republic, was born in Cleveland, O., and lives at present in Missouri. He served with distinction during the war, after which he began the study of law, which he has practiced ever since, and is at present collector of internal revenue at Kansas City.

### PLAYS AND PLAYERS.

Alla Nazimova has opened in "The Master Builder," by Ibsen.

Frank Gilmore has been engaged by the Shuberts as leading man to Mary Manning to play Jerome Bonaparte in "Glorious Betsy," Mrs. Rida Johnson Young's play.

Miss Ida Fuller, who has been appearing in vaudeville in Europe for a number of years, recently made her appearance in the New York theater in a new Parisian spectacle act entitled "La Sorciere."

Dennis O'Sullivan is a new Irish star who is under contract to Joseph Brooks to star in "Peggy Macree," beginning about the first of the year. His success in London, Dublin, Belfast and other cities has been great.

An accident caused Edwin Arden's stage career. A boy friend cast for a part in an entertainment was sick, and Arden essayed the part. A manager, seeing the performance, offered Arden \$20 a week, and he eagerly accepted it.

Charles Balsar, formerly a member of the Manhattan company when it was supporting Mrs. Fiske in "Leah Kleschna," has been engaged by Harrison Grey Fiske to play Paul Sylvaine, John Mason's role, in his special "Leah Kleschna" company.

### ENGLISH ETCHINGS.

Fifty thousand dollars a year is spent on Regent's park, in London.

A syndicate has been formed for the purpose of making roads out of London for the use of motor cars.

King Edward rules over more Mohammedans than the sultan of Turkey, over more Hebrews than there are in Palestine and over more negroes than any sovereign of Africa.

When North Gosforth church, near Newcastle, England, which had never been consecrated, but in which services had been held regularly, was put up at auction not a bid was made for the property.

It is calculated that English now leave in millions for the continent every summer. Ten years hence, says London Truth, it may be necessary to leave a caretaker in charge of England while the community is absent abroad.

A Cheerful Giver.  
"Justin, here's a bill collector," called Mrs. Wyss.  
"All right," replied Mr. Wyss from the library. "Give him all he can carry away."—Harper's Weekly.

## Jno. M. Lawrence & Co

### The Daily Eagle

Entered at the Postoffice in Bryan, Texas,  
as second class matter.

BY CARNES & WALLACE

BRYAN, TEXAS, OCT 29, 1907

The Hughes presidential boom  
has reached the stage of inquiry  
for the original Hughes man.

Mrs. Plenty of Pittsburg has  
just presented her husband with  
their fourth pair of twins. If the  
psalmist was right when speaking  
of children he said, "Happy is the  
man who hath his quiver full of  
them." Mr. Plenty has blessings  
corresponding with his name.

The Scientific American of Oct.  
26 has a long article the object of  
which is to prove that the exist-  
ence of intelligent constructive life  
on Mars is proven by the same  
evidence as the proofs that support  
the law of gravitation. In both  
cases, it claims, there is no room  
for doubt.

Recently the Eagle had occasion  
to comment on the misspelling of  
the name of ex-Governor Porter of  
Tennessee. In the reports of Presi-  
dent Roosevelt's visit to Nashville  
it was mentioned that the president  
caught a glimpse of the tomb of  
"ex-President Pope," and in the  
report of his speech it was stated  
that he referred to the heroic deeds  
of the early Tennesseans at the  
battle of "Wing's Mountain,"  
while one paper had it Lookout  
mountain. Such butchery of the  
history of their native state by the  
associated press reporters is mortify-  
ing to Tennesseans. President  
Roosevelt ought to give some at-  
tention to the history-fakers.

#### MUTUAL IMPROVEMENT CLUB.

At the last meeting of the Mu-  
tual Improvement Club Mrs. L. L.  
McInnis was elected correspond-  
ing secretary, Mrs. Tyler Haswell  
recording secretary and Mrs. M.  
W. Sims representative of the club  
at the Waco meeting of the State  
Federation Nov. 19. The presi-  
dent, Mrs. Albert Buchanan, named  
the following standing committees:  
Home Committee—Mesdames  
Haswell, Howell, Francis and Kin-  
nard.

Floral Committee—Mesdames  
South and Wipprecht.

Civic Committee—Mesdames  
Waldrop, Raysor, Charlton.

Year Book Committee—Mes-  
dames McInnis, Allen and Francis.  
Censor—Mrs. Waldrop.

Federation News—Mrs. Sims.

#### FOSTER'S WEATHER BULLETIN.

(Copyrighted by W. T. Foster.)

Washington, D. C., Oct. 26.—  
Last bulletin gave forecasts of dis-  
turbance to cross continent 26 to  
30, warm wave 25 to 29, cool wave  
27 to Nov. 1. Next disturbance  
will reach Pacific coast about 30,  
cross west of Rockies country by  
close of 31, great central valleys  
Nov. 1 to 3, Eastern states 4. Warm  
wave will cross west of  
Rockies about 30, great central  
valleys Nov. 1, Eastern states 3.  
Cool wave will cross west of Rock-  
ies about Nov. 2, great central val-  
leys 4, Eastern states 6.

Very severe weather will come  
with this disturbance. The steady  
and powerful electrical currents of  
that great planet Jupiter will take  
complete control of earth's mag-  
netic system and, aided by that  
swift moving planet Mercury, will  
so affect our atmosphere that all  
weather events will go to ex-  
tremes.

About time this disturbance is  
passing, eastward bound, warm  
weather will prevail, severe storms  
will follow with rains, then snows  
in northern sections, closing the  
disturbance with a cold wave that  
will carry frosts far into the South-  
ern states.

About the time this cold wave  
appears tropical storms may be ex-  
pected off or along our Southern  
coasts. These storms may not  
reach their greatest force till a few  
days later, but I cannot too earn-  
estly call attention to the extreme  
storm influences that will prevail  
during first half of November. I  
expect very great extremes of  
weather from November 2 to 14.

Immediately following Oct. 26  
will come a great rise in tempera-  
tures, weather events will become  
more marked, followed by several  
days of quiet, merging into Indian  
summer.

The wonders of wireless tele-  
graphy will never cease. Think of  
the amazing idea of talking  
through the air to your friends  
11,000 miles away. An exceed-  
ingly small particle of electricity,  
let loose into the air, starts a wave  
that is felt half way around the  
earth. Is there any longer room to  
doubt that Jupiter, 1400 times  
larger than our earth, and known  
to be the most powerful magnet in  
the solar system except the sun—I  
say, can it be longer doubted that  
Jupiter's electric discharges affect  
our earth, our atmosphere, our  
weather? When you better under-  
stand the wonders of wireless tele-  
graphy you will not doubt the pos-  
sibility of one planet affecting an-  
other planet's atmosphere and  
weather through their magnetic  
systems.

#### Science and Cancer.

The results of the long and thorough  
research into the nature of cancer con-  
ducted at the Pasteur institute in Paris  
are all, except as showing that the dis-  
ease is neither contagious nor heredi-  
tary and that it can be combated only  
by a surgical operation. It seems ob-  
vious that nearly everything yet re-  
mains to be learned about cancer.—  
Boston Globe.

Preferred the Second Best.

Doctor—You've got gout, that's  
what's the matter with you, and the  
best treatment is to avoid all beer,  
wines and spirits, no smoking—  
Gamekeeper—Well, doctor, now tell  
me the second best remedy.—Fillingde  
Blatter.

#### STRAYED OR STOLEN.

One light fawn Jersey cow with one straight  
horn and one drooped horn. Very fat.  
Liberal reward for return to W. E. John  
son.

#### A. AND M. 5, HASKELL INDIANS.

In a hard fought football game  
at College yesterday afternoon the  
A. and M. defeated the Haskell  
Indians by a score of 5 to 0. A  
large crowd witnessed the game.

#### YOU BE THE JUDGE.

Close buyers tell us that we are 25 per  
cent lower on high grade clothing.  
278 Wilson & Darden.

#### Try This For Catarrh.

Free tests are now being supplied by mail  
to all Catarrh sufferers. There is no  
expense—no obligation whatever.  
Dr. Shoop is combining Oil of Eucalyptus,  
Thymol, Menthol, Oil of Wintergreen, etc.,  
and is incorporating these ingredients into  
a pure, snow-white cream-like Imported  
Petroatum. This Cream—Dr. Shoop's  
Catarrh Remedy—gives immediate and  
lasting relief to catarrh of the nose and  
throat. That all may first test it free, these  
trial boxes are being mailed without  
charge, simply to encourage these tests  
and thus fully demonstrate, beyond doubt,  
the value of this combination.  
If Catarrh has extended down to the  
stomach or bowels, then Dr. Shoop's  
Restorative must also be used internally  
if a complete cure is to be expected.  
Otherwise the Dr. Shoop's Catarrh  
Remedy will alone be entirely sufficient.  
Write Dr. Shoop, Racine, Wis. for sample  
and book. Sold by Druggists everywhere.  
Which book shall I send you?

Marriage license have been issued to Frank Curtis and Miss Lula Tuck, Phil Lawson and Matilda Johnson, Dan McClaver and Mandy Galloway, Jesse Jones and Maggie Bowman, Primus Hudlon and Hattie Redden, Rufus Jefferson and Gergia Ellis, Tom Washington and Malinda Caphon, Luke Leo and Maria Noto, Tom Hawkins and Laura Williams.

Representative W. C. Davis has received an invitation by the executive committee of the Interstate Inland Waterway to attend the third annual convention of the body in Houston Nov. 8 and 9. Mr. Davis is much interested in and has gathered considerable data relative to the improvement of inland waterways. He has accepted the invitation and will attend the convention prepared to take an active part in same.

If real coffee disturbs your Stomach, your Heart or Kidneys, then try this clever Coffee imitation—Dr. Shoop's Health Coffee. Dr. Shoop has closely matched old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee Imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in one minute. No tedious long wait. You will surely like it. Get a free sample at our store. J. M. Lawrence & Co. 282tf

Rev. T. H. McGee, a Presbyterian minister of Henderson, Tenn., by the invitation of the pastor, filled the pulpit of the Christian church at the court house Sunday night. Dr. McGee took as his text Gen. 1:26, "Let us make man in our image, after our likeness." It was a masterful sermon on how a man is like his Creator. After showing the relationship of different things of creation, to the Creator, he showed that man was in the likeness of God in his mind, the power of thought and freedom of choice. The discourse made a deep impression on the congregation and was much appreciated.

DEATH OF MRS. ROGER Q. MILLS.

Friends in this city learned yesterday with profound regret of the death of Mrs. Roger Q. Mills yesterday morning at the family home in Corsicana. She had been ill for a long time, and was brought home from Washington, where she was under treatment, about a month ago.

The funeral will take place in Corsicana this afternoon at 3 o'clock.

COAL.

We have a car deep mine, McAllister coal in transit. Buy now, before bad weather sets in. Phone 376. 282 Wilson Grain Co.

The Swiss Glaciers.

The heavy snowfall and storms in the Alpine region last winter and late in the spring forcibly illustrate the proverb of its being an ill wind that blows no good. For the last half century there has been observed a steady diminution in the area of the Swiss glaciers, and jeremiads have appeared in print as to the dark prospect should tourists once turn their faces in other directions. The rigors of 1906-07 have changed all this. According to all the authorities, they have left a deposit which will go far to rehabilitate the glaciers.

The South's Cotton.

There is much actual gold still to be discovered in the south, but the cotton grown annually by that section is worth far more than all the gold and silver produced in the world in the same time. Between 1901 and 1905, for instance, the total value of the world's gold and silver output was \$2,606,686,400, and the total value of the cotton crop of the south, including seed, in the same period was \$3,669,000,000, a difference in favor of cotton in the six years of \$1,062,313,600.—Southern Farm Magazine.

Earl Dunmore a Confederate Captain. It is not generally known that as Captain Charles Murray the deceased Earl Dunmore served with the Confederacy of America for three years, and in 1862 he was a participant in the adventurous attempts at blockade running of that period. He commanded the steamer Nashville when it ran the Federal blockade on April 24, 1862. Afterward he joined General Robert E. Lee and remained with him for several months.—London Telegraph.

Classify Him.

"Yaas," said Cholly. "I confess I prefer dear old England to this country. I should like to be a subject of the king."

"Vain longing," retorted Miss Peppery. "Of course you can never be anything but an object."—Philadelphia Press.

Soon.

Suburban (hiring cook)—How much a month do you want?  
Norah Gougan (indignantly)—What do ye take me for—a far-rim hand? Me scule av salary is 17½ cints an hour, kitchen time, wid double pay for holidays an' whin ye have compny.—Puck

Similarity.

Stubb—Yes, the fancy gardener has named his special radish after his wife.

Penn—Rather a warm compliment. Did he say why he did so?

Stubb—Yes; he said they never agree with him.—Chicago News.

Questionable Veracity.

Green—So Bragg's tells a different tale, does he? Well, I guess my word is as good as his.

Brown—I should hope so. Bragg's is a charter member of a fishing club.—Detroit Tribune.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.  
In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's  
Rheumatic Remedy

### EDITORIAL FLINGS.

The outlook for the apple crop indicates that cider vinegar will be more ambiguous than usual this year.—Cleveland Leader.

An Italian poet who won \$10,000 in a lottery promises to quit writing verse. That's the best argument yet advanced in favor of the lottery.—Omaha Bee.

The American people spend \$60,000,000 annually for chewing gum. No wonder there is a wad stuck to the bottom of nearly every chair in the land.—Chicago Record-Herald.

A Swedish blacksmith was found starving in New York, although he had \$10.50 in his pocket. People who have paid for meals in New York will not be surprised at this.—Detroit Free Press.

Dr. Wiley says human life is longer now than formerly. This may be due to the fact that the cost of living is so high that most of us have to stay longer to get our money's worth.—Washington Post.

It is claimed that one-tenth of the work on the Panama canal is completed. A very little ciphering will reveal the interesting fact that this leaves but nine-tenths of the work to do.—Cleveland Plain Dealer.

### SHORT STORIES.

Tea was discovered in the eighth century.

The lead of a very cheap pencil is often nothing but coke.

It has been calculated that \$50,000,000 worth of standing timber is destroyed annually in the United States.

Two of the most productive wheat regions in the state of Washington are named Horse Heaven and Rattlesnake.

The merchants of Emmett, Kan., are offering presents of furniture to couples under twenty-five years of age who will marry before Jan. 1, 1908.

On Sept. 1 a fall of one-tenth of an inch of rain occurred at San Francisco, the first time in fifty-eight years that rain has fallen so early in the season in that locality.

Professor Charles J. Bushnell in a lecture delivered at Washington said one-eighth of the families in the United States now own seven-eighths of the wealth of the country.

### AROUND THE HOUSE.

Save your bits of old velvet for polishing. When washed they will prove as useful as chamois.

Remnants of laundry soap can be boiled into a jelly or soft soap for dishwashing or shaved into the wash boiler on wash day.

It will be economy to finish your sheets with the same width hem at each end. By so doing they can be used either side up and gain much wear.

Use fine wire for hanging up such articles as rolling pins, chopping knives, potato mashers and pastry boards. The wire loop is perfectly clean.

Combs should not be washed with water. This is apt to split the teeth. A stiff nailbrush is a good thing to keep for cleaning them. After using the brush take a damp cloth and wipe between each tooth with this.

### NEW YORK CITY.

In the men's clubs of New York city there is spent \$100,000 a day.

If each New Yorker gets his proportion of the rides taken on the city's railways he has 334 rides a year.

New York has a display of more bejeweled women on its streets in proportion to the population than any other city in the world.

There are about ten sudden deaths in New York city each day—that is, deaths where there is no attending physician within twenty-four hours.

New York city is now growing twice as fast as London, and it is estimated that the city now contains 4,550,000 persons. In the immediate district depending on the metropolis there are 6,200,000 persons.—New York Herald.

### FACTS FROM FRANCE.

Nearly the entire freight traffic on the Rhone river, France, is controlled by one company.

Although both the Rhone and the Saone rivers flow through the French city of Lyons, there are not over ten motor boats in use.

Estimates of the production of wine in France this year count on a vintage of 1,166,000,000 gallons. Fully 1,100,000,000 gallons will be consumed by the French at home.

The commutation by President Fallieres of the death sentence upon Soellant pronounced by the Seine assize court to penal servitude for life is regarded both by the legal profession and by the public as the final abolition in France of capital punishment.

### GERMAN GLEANINGS.

In Germany, as everywhere else, the scarcity of female servants is greater than ever.

Berlin has a restaurant where a beefsteak prepared in the highest style of culinary art costs \$4.50, and the waiter expects a tip of 50 cents.

There were last year only ninety department stores in Germany, where such stores have aroused a much more bitter animosity than in the United States.

Two years ago Dr. Preuss of the Berlin Ethnological museum was sent to Mexico to gather material relating to Indian tribes. A few weeks ago he returned to Berlin laden with treasures of all kinds.

### FAITH IN THE STEERAGE.

Immigrants to This "Land of Hope" Make Merry.

The average steerage passenger is not envious. His position is part of his lot in life, says the author of "On the Trail of the Immigrant." The ship is just like Russia, Austria, Poland or Italy. The cabin passengers are the lords and ladies, the sailors and officers are the police and the army, while the captain is the king or czar. So they are merry when the sun shines and the porpoises roll, when far away a sail shines white in the sunlight or the trailing smoke of a steamer tells of other wanderers over the deep.

"Yes, brothers, we are traveling on to America, the land of hope. Let us be merry," says one.

"Where are you going, Czeska Holka?"—a pet name for Bohemian girl.

"To Chicago, to service and soon, I hope, to matrimony. That's what they say—that you can get married in America without a dowry and without much trouble. Where are you going, signor?"

"Ah, I am going to Mulberry street. Great city. Yes, Mulberry street. Great city!"

"Polak, where are you going?"

"Kellisland."

"Where do you say?"

"Kellisland, where stones are and big sea."

"Yes, yes, I know now; Kelly's Island, in Ohio. Fine place for you, Polak—powder blast and white limestone dust, yet a fine sea and a fine life."

All of them are going somewhere to some one, not quite strangers. Some one has crossed the sea before them. They are drawn by thousands of magnets and will draw others after them.

Most of them believe with a simpler faith than our own. No morning, no matter how tumultuous the waves, but the Russian Jews will put on their phylacteries and, kissing the sacred fringe which they wear upon their breasts, will turn toward the east and the rising sun, to where their holy temple stood.

Rarely will a Slav or an Italian go to bed without committing himself to the special care of some patron saint.

### A Franklin Relic.

People of all "persuasions," says the London Chronicle, will regret to hear that the old Sardinian chapel off Lincoln's Inn Fields is, after all, to be demolished. It had remained standing when so many surrounding buildings had been swept away in the making of Kingsway that one had hoped it would be spared the general fate. Little remains of the original chapel of 1648, for in the "no popery" riots of 1780 the fury of the rabble selected it for especial injury, so as to necessitate an almost entire rebuilding. Just opposite, in 1725, when he was a journeyman printer, lodged Benjamin Franklin with a Roman Catholic widow and her daughter—a very uncommon sort of printer, as his fellow workmen in Great Wild street thought, for among the fifty or so employed in Mr. Watt's office, beer drinkers all, Franklin stood out as the one water drinker—teetotaler was a word not known till nearly a century later.

### PITH AND POINT.

Every man who borrows trouble pays usurious interest.

You were never fairly discussed behind your back in your life.

Most people will make any sacrifice to gratify their fool streak.

Mend your own faults, and the faults of others will not be so apparent.

How many opportunities there are to spend money! And how few opportunities to make it!

You hear people say sometimes they do not care much for compliments. Nothing in it. All of us love a compliment.—Atchison Globe.

## Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is scant, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell.

Dr. Shoop's Restorative  
M. H. JAMES.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative
